Houle Games & Entertainment is pleased to offer you our finest Full-Service “Fun Money” Casino Packages with the absolute best service available!

Each Casino Package includes our beautiful casino tables, Las Vegas style chips and accessories and sharply dressed pit boss and professional dealers. Our pricing is based on up to a 4 hour deal time, including cash-out.

How the Fun Money Casino Operates: Each guest is to receive one \$1000 play bill. If you will be there at the time of delivery, you can collect the play bills from our delivery crew. If not, you can find the play bills underneath one of the casino tables in a tub. You will be responsible for distributing these play bills to your guests at the beginning of your event. We recommend handing out the bills as your guest first enters the event or at a registration table. There will be professional value chips at each casino table. Your guests can then take their play bill to any of the casino tables and the dealers will convert their bill into chips. The dealers will cash out during the last 20 - 30 minutes of casino run time. We provide two cash out methods for you to choose from, Raffle Tickets or Vouchers. At the beginning of the event please let the Pit Boss know which method you have chosen. (We do not provide draw boxes or prizes; this is up to the client to provide).

Raffle Tickets: Players bring their chips to a dealer for cash out and they will give them raffle tickets, 1 ticket per \$500 cashed in. The player holds onto one ticket half and places the other half in a draw box corresponding to the prize they want to win. You (the client) then draws tickets and announces the prizes.

Vouchers: Players bring their chips to a dealer for cash out and the dealer will count the chips and write the player's name and total on a voucher. Once everyone's chips have been collected and they have been given a voucher, you (the client) will announce who has won the most money and award prizes accordingly. You may also choose to do an auction with participants bidding based on how much is written on their voucher.

Dealers: Arrive 10 - 15 minutes in advance of deal time dressed in silver vests with bow ties, white dress shirts and black dress pants. Dealers require a 10 minute break every hour using our provided relief dealers. There should be a green room or designated break area for the dealers. If there is no separate break room/area available, the dealers will take their breaks in the same room as your event. Dealers should only take direction from their acting Pit Boss so the client or event planner only needs to liaison with one casino staff.

Delivery, Set-up and Strike: We deliver/set-up our equipment before guests arrive and tear down/strike after the 4 hour casino run time. The exact timing will be determined closer towards the date and will depend on the earliest time that the venue is available for set-up and your guest arrival time. If you have specific set-up/tear down timing requirements, please let us know upon booking so we can try to accommodate your request.

Casino Equipment	Size of Equipment	Number of Players

- Each Fun Money Casino Package includes our casino tables, chips and accessories, a pit boss, professional dealers and relief dealers. Pricing *in town* is based on up to a 4 hour deal time, including cash-out.
- We recommend choosing a package that allows for approximately half of your guests to play at one time. For example, if you are expecting approximately 100 guests, you may want to consider a package that allows for 50 people to play at one time. You can choose to increase or decrease the amount of casino tables based on any other entertainment or activities going on at the same time as the casino.

Base Pricing

In the chart below, it first lists the number of Standard Tables + the number of Premium Tables included in each package. Choose from "Standard Tables" (Blackjack, Texas Hold'em Poker, Money Wheels & Baccarat) PLUS a quantity of "Premium Tables" (Craps & Roulette).
